SUBJECT TO THE DECISION OF THE BALTIMORE WHIG CONVENTION.  
**CITY NOMINATION.**  
FOR MAYOR,  
**Jacob Drummond.**  
SEE FIRST PAGE.

We notice a disposition in some of the one-sided Free Trade advocates, to seize upon the incidental effect of the present protective tariffs, to lessen prices on various articles by inducing a home competition in connection with the foreign, and to represent this as a primary object. The fact so significantly shown of late, that protection to home labor has a tendency to reduce prices to the consumer, is one of much importance, and the more so as it disproves the entire theory of the one-sided free trade position, that a duty laid upon an article is so much added to the cost of that article to the consumer; but this is not the primary object of the Protective Policy. The primary object of the protective system is, independent of the immediate influence on prices, to cherish home labor; to aid the toiling, sweating workmen; to nourish in the heart of the people the sentiment of independence of foreign governments, and the importance of sustaining, through all the changes and vicissitudes of the world, a good home market. Without shutting the eyes to foreign commerce, it would especially keep all eyes open to the vast importance of the home trade, which is now of ten fold more value than the foreign, and which is rapidly increasing.

The protective policy has as its great feature the independence and comfort of the American Union and the American people. It has regard to the physical, social, educational and moral well being of the laboring men of the United States. Its design is to afford the American working man a full remuneration for his toil; giving him time for moral and mental improvement, by which he may be lifted in the social scale. It identifies the interest of the producers with the interests, prosperity and happiness of the nation. In opposition to these noble designs, the advocates of Free Trade would have the working men—the great majority—constituting nine-tenths of the people of the Union, brought down on a level with the drudging laborers of Europe—their wages diluted and adulterated to the low and miserable pittance obtained in despotic and monarchical countries, that they may save a cent a yard on cloth and a little abatement in the "price of Madder!" Americans! look to your interests!

**Disaster.**  
The St. John New Brunswick, brought by Gunnison's Express, states that the Brig Peruvian, Captain Grant, from Liverpool to that port, on the 21st of Feb. near Sable Island, fell in with the long-boat of the barque Jupiter, of Port Glasgow, having on board the Master and Crew of that vessel, which they had abandoned just as she was sinking, on the 18th ult. The Jupiter was bound from Belfast to Boston, and had on board 270 tons pig Iron, 25,000 bricks and other heavy articles, which caused her to strain very much, until she sprung a leak, which obliged the crew to abandon. Two men died in the boat from cold and exhaustion, and the survivors have suffered very much, and are now in the hospital at St. John. They speak in high terms of the kindness they experienced from Capt Grant of the P. who did all in his power to alleviate their suffering.

"The dividends of the manufacturers do not average less than 25 per cent on the capital invested." [Gazette].  
We do not think it important to notice all the twistings and turnings of the Gazette but the above statement in the columns of that paper is so much at variance with the authoritative statements made in the Boston Daily Advertiser, the Lowell Courier, and in the remarks of Senators in Congress that we cannot let it pass without asking for the proof.

**Another Great Slave Insurrection near Matanzas.**

Capt. Lucas of the bark Sharon, arrived at New York from Matanzas, Feb. 20, states that on the day previous to his sailing an insurrection had broken out among the slaves on the plantations in the neighborhood of Matanzas, and it was supposed that their plan of operations had been concerted throughout that part of the Island. The people from the country were hastening to the city for protection—great numbers had already arrived. An engineer on one of the sugar plantations had been thrown into one of the sugar boilers and scalded to death. The inhabitants of Matanzas were seriously alarmed. One planter, who had four hundred slaves on his estate had put 100 in irons the day Captain L. sailed. Several hundred soldiers started in different directions to endeavor to quell the disturbances.

**Great Bank Robbery.**

The Madison branch of the State Bank of Indiana was forcibly entered on the night of the 15th ult., and robbed of the large sum of \$27,360. A reward of \$2000 is offered for the recovery of the money, and an additional \$1000 for the arrest and conviction of the thief.

The advocates of Free Trade, that is, an open trade on the part of the United States against a strongly restricted trade on the part of foreign governments, for this is the only proper and just definition of the term Free Trade, as now used in the United States. We say the advocates of Free Trade bring two objections against the present Tariff, which they swing and strike as often as the Blacksmith does his sledge, and if there was half the force in the blows struck upon the head of the tariff with these objections as the authors seem to suppose, the Tariff, by this time, would have been beaten to powder and pumice. They are; that the tariff will destroy the revenue and the commerce of the country. The first objection appeals to those who would have the government maintain itself by a revenue on importations: the second to those directly interested in foreign commerce. The reasons in favor of these conclusions are, that the duties on articles of foreign manufacture and production will stop those articles from being imported, and therefore no revenue will accrue, and no business will be found for our ships. This is the theory. Now for a fact or two and some figures. We see it stated in New York papers, alluded to in Congress; and admitted by those familiar with the fact, that the revenue is increasing, and that our ships find ample employment and business is reviving, among importing merchants as well as others.—Here are a few figures upon the subject, clipped from the New York Tribune, and we have the fullest confidence in their correctness:—

There arrived at the port of New-York from Foreign ports in the month of February One Hundred and Twenty-three vessels, of which 101 were American, 12 British, 5 Swedish, 7 German, and 5 of other nations; 34 of them Ships, 40 Brigs, 24 Barks, 24 Schooners and 1 Sloop of War. The number of packages of goods deposited in Public Stores for inspection were

In 1843.....Jan.....3,588	In 1844.....Jan.....8,130
Feb.....3,267	Feb.....10,771
Total.....6,855	Total.....18,901

The gross receipts of Revenue from Customs at this port were

In 1843.	In 1844.
In January.....\$548,056	\$1,876,615
February.....492,216	2,169,110

Total.....\$1,040,272

Or nearly quadruple in '44 the amount in '43. Allowing that there is but an amount collected in all the other ports equal to that received here, (and we think there is more) the Receipts of Customs for the first two months of 1844 exceed EIGHT MILLIONS OF DOLLARS, being at the rate of nearly FIFTY MILLIONS PER ANNUM!

We published, a few days since, a statement of a similar character, with regard to the importations at the port of Boston. Now one practical fact is worth a bushel of theory and a cart load of hypothesis. These facts completely overthrow and demolish the two objections mentioned, and they are so significant and forcible that, for party purposes, we expect some of the Free Trade writers will, by and by, begin to cry out against the excess of the revenue and of foreign importations, and thus

"Turn about and wheel about and do just so, And every time they wheel about jump Jim Crow."

**From Washington.**

Of course we have no news from Washington, except the details of the funeral ceremonies of Saturday, already published. The papers from the Capital are full of minute accounts of the sad proceedings of the day.

Capt Stockton is gradually recovering, and is entirely out of danger. Nine of the wounded have been conveyed to the Hospital, and it is supposed they will all recover. The President and his son, John Tyler, Jr. Esq. had a narrow escape owing to the horses attached to their carriage taking fright, although we are happy to state no injury ensued.

**Concert.**

The Bath Quartette Club gave a charming concert at the Court House last evening. It was well attended, and every body appeared pleased. The concert will be repeated, with a change of performance, this evening.

Many of our old substantial singers had a pleasant sing at the Kenduskeag Market Hall last evening, with much pleasure to themselves and many of their friends.

**Death of Mr. Frick.**

The Washington papers announce the decease, at Washington, on the 1st inst., of the Hon Henry Frick, of Pennsylvania, a Representative in Congress from the 13th District, composed of the counties of Clinton, Lycoming, Northumberland and Union.

**First Ward.**

We are requested to state that the First Ward Caucus stands adjourned to meet at the Clay Club Room this evening, at half past seven o'clock.

Dr Elisha Huntington, the regular Whig candidate, was on Monday elected Mayor of Lowell over Jonathan Tyler, the "citizens" candidate.

We have received a few of the nominations made last evening, but as the list is not completed, we shall defer publishing those received until tomorrow.

The Steamboat Portland will commence running between Portland and Frankfort on Monday, the 18th inst.

The Gazette continues to make progress in Free Trade doctrines.

**Fruit Trees.**

To the Editor of the Whig and Courier.

If our citizens will save all their leached and unleached ashes, and place at least half a peck around the roots of each tree in their Gardens or on their farms, they will be paid 20 fold for their labor; by the abundant bearing of their trees. The ashes will also prevent the inroads of the borers, and will be found to be the best manure for promoting the rapid growth, of not only fruit, but ornamental trees, that can be used.

**Bangor Fifement.**

Here is a plum to eat. The following letter, copied from the Belfast Signal, and will receive further attention at a future time.

Boston, March 1, 1844.  
T. CHASE, Esq., Sir—Our attention has been called to a paragraph in the Bangor Whig of January last. The writer of that article seems to doubt the ability of the engine to throw 100 gallons of water 120 feet perpendicular in 25 seconds. All we have to say on the subject is, the engine is capable of performing as stated in the circular; but to do it you must have a company well drilled. Should the present company not succeed in making the engine come fully up to our circular, and the writer of that article will extend his offer to one of our fire companies, to play for suppers, and add fare to Belfast and back to Boston, we will engage to come to Belfast and let them have the pleasure of footing the bills. Yours very Respectfully,  
W. C. HUNNEMAN & CO.

**The Signal thus remarks:**

Now for that much talked about sport. This challenge is given to substantiate the makers circular. The working of the engine by a Boston company is nothing to this company, one way or the other. But we presume it is the intention of the Belfast company, in four months from this time, not to be second to any fire company, far or near.

The time fixed for the Democratic National Convention at Baltimore, to nominate a candidate for President and Vice President, is Monday, the 27th of May next—according to the Washington Globe.

**Tobacco—Free Trade.**

The Philadelphia U. S. Gazette remarks that while the British are urging free trade, and some Americans are seconding it, so far as it regards the free introduction of foreign articles into the United States, it may not be improper to point out the operation of the revenue laws of Great Britain on one important product of the United States. The duty on tobacco varies from three shillings to nine shillings a pound. A merchant at Philadelphia, a few days since, sold 2,332 pounds of tobacco, at 9 cents a pound, amounting to 209.88. This tobacco will be sent to Liverpool; it will pay nine shillings a pound import duty, making 20,988 shillings, or £1,050, or nearly \$5,250. Other tobaccos pay three shillings a pound, none less.

A man in Ohio, well-mounted, was urging on a drove of fat hogs towards Detroit, met a charming lot of little girls, as they were returning from school, when one of them, as she passed the "swinish multitude," made a very pretty courtesy.  
"Why, my little gal," said the man, "do you courtesy to a whole drove of hogs?"  
"No, sir," said she with a most provoking smile, "only to the one on horseback."

**Legislature of Maine.**

AUGUSTA, Tuesday, March 5.

Passed to be engrossed—Bill in addition to an act to incorporate the Bangor Boom Company—resolve relative to the re-occupation of Fort Kent.

On motion of Mr Garcelon, bill to organize, govern and discipline the militia was taken up. Several amendments were proposed and discussed, some adopted and others rejected.

One amendment offered by Mr Brooks, proposed to strike out one dollar given to the soldier in lieu of rations, and insert fifty cents.—The question was rejected.

The bill was then laid on the table.

On motion of Mr Cunningham, the resolve to promote the sale and settlement of the Public Lands, was taken up.

Amended, and the resolve passed to be engrossed.

In House. A communication was received from the Secretary of State, transmitting certain correspondence between the late Gov Kavanaugh, the Secretary of War, and President of the U. States, in relation to the removal of troops from Fort Kent. The correspondence was read and laid on the table.

Mr Little called up from the table, the motion to reconsider the vote striking off the preamble from the resolve for the reception of the Distribution money; and called the yeas and nays on the motion, and they were ordered.

The motion to reconsider the vote striking off the preamble, was taken by yeas and nays, and decided in the negative, 59 to 64.

Mr Jarvis moved the reference of the Resolve to the next Legislature.

The motion to refer the resolve to the next Legislature was then taken, and lost, by yeas and nays, 54 to 71.

AUGUSTA, Wednesday, March 6.

In Senate. Bill relating to Penobscot Boom Corporation, reported from Committee read once, rules suspended, had a second reading, and passed to be engrossed.

On motion Mr French, the bill to organize, govern and discipline the Militia was taken up, some amendments adopted and passed to be engrossed.

In House, The Resolve for the reception of the Distribution money, pending when the House last adjourned, was laid on the table.

Mr Blancy of Bristol, by leave, introduced a resolve for the reception of the distribution money, and he moved a suspension of the rules so as to read the resolve at the present time.

The yeas and nays were ordered, and the motion to suspend the rules was lost.

Mr Meder of Brunswick, offered an order, prefaced by a preamble, which declared, in effect, that the Valuation of 1841 was as good a valuation as can be made by this or any other Legislature, also that the law of 1843, ordering a new valuation, was passed with haste, and without consideration—that it is inexpedient to incur the expense of taking a new valuation at this session, &c.—therefore that the valuation committee be discharged from the further consideration of the subject, and that it be indefinitely postponed.

After some discussion Mr Meder withdrew the preamble to the order.

The order was then indefinitely postponed, 79 to 27.

Passed to be enacted—Bill to alter the time for the annual assessment of repairs upon highways in unincorporated townships—bill to incorporate the Camden Marine Railway Company—bill to incorporate the Belfast Manufacturing Company—bill to lessen the expenses of Judicial proceedings.

Finally passed—Resolve additional making an appropriation of \$3000 on the Fish River Road—resolve in favor of the town of Lowell—Resolve providing for the repair of the Baring and Houlton road—resolve relative to the exchange of the stock owned by the State in the Mercantile Bank—resolve relative to the distribution of the annual school fund.

Mr Morrill called up the new Town Court Bill, and the question was on its passage to be engrossed.

Mr Baker of Hallowell, moved to amend the bill by making the Justices elected by the several towns, to hold their office for 7 years.

The bill was laid on the table.

Adjourned.

The following extract is from a recent letter of Mr Clay in reply to the Charlotte County Virginia Clay Club inviting him to visit that County:—

"It affords me very great pleasure, gentlemen, to learn that the people of Charlotte and its neighborhood, renouncing preconceived prejudices and antipathies, are candidly reviewing their former opinions adverse to a protective tariff; and that many of them are disposed now to believe that reasonable and moderate protection, short of prohibition, is beneficial to the consumer by augmenting the supply. The non-existence of manufacturers in the United States would leave to foreign countries the supply of American consumption. The prohibition of foreign fabrics would transfer that monopoly to the home manufacturers in the United States; but the monopoly would be modified progressively, by competition arising at home. The true interests of consumers are best promoted by a competition between the foreign and the national supply. The inevitable tendency of that competition is to reduce prices, as all experience has demonstrated. A duty never augments the price, to the full extent of its amount, but in the case of an inadequate supply of the article, on which it is imposed, to the demand for that article.

But the reduction of prices is not the only, nor the greatest advantage of the establishment of manufactures in our country. They create an ability to purchase those cheaper articles, by the home market which arises from the products of agriculture and of labor."

We find the following in a Mobile paper, without credit. It is the most shameful piece of barefaced impudence that we have ever beheld. It is to be hoped that the author may be discovered and that the public indignation may vent itself by means of brick bats!

"Why is a Bustle like a Romance?" Do ye give it up? "It is a tale of fiction founded on a stern reality!"

Cassius M. Clay, has announced his determination to emancipate all his slaves in the course of the present year. Mr Clay is a very large slave-holder and is said to be the richest man in Kentucky.

Mr Phillips of Assumption, stated in debate the other day, in the Louisiana House of Representatives, that in his parish there were, on an average, twelve children to every family in it!

**DR. TAYLOR'S BALM OF LIVERWORT.**  
**PRICE REDUCED.**

DR. TAYLOR'S Balm of Liverwort, from 375 Bowery, New York—for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unrelieved, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hopeless cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approbation.

Consumption.—The following remarks were taken from the last number of the Medical Magazine: "The surprising effect produced by the genuine Dr. Taylor's Balm of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following CERTIFICATE.

**Liver Complaint and General Debility.** I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balm of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health.  
GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article abroad; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale by G. W. LADD, Agent, Bangor.

**SANDS' SARSAPARILLA.**  
**FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.**

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, acetites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

NEW YORK, August 3, 1842.  
"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction, and truly I can say, 'from the crown of my head to the sole of my foot there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various species, among others a large quantity of Swain's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate anything in relation to the above cure.

Prepared and sold by A. B. SANDS & Co., Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.

The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.

G. W. LADD, Agent for this vicinity, and dealer will be supplied very low by the dozen.

**Indian Vegetable Pills.**

The True Character of Counterfeit Medicines.

Sellers of Counterfeit Medicines.  
**NO** Medicine has been introduced to the American Public, whose virtues have been more cheerfully and universally acknowledged than its vast popularity, and extensive circulation. "WRIGHT'S INDIAN VEGETABLE PILLS."  
To descend upon their various virtues at this season would be a work of supererogation, since who peruse this article will be found acquainted with the widely circulated proofs of its real excellence of the Medicine, to which we will be ready to add the testimonials of its value. But if further proof were needed, the fact that no Medicine in the market has been so shamelessly and repeatedly counterfeited, is a most eloquent evidence of its popularity. It is a fact, however, that in different places, unprincipled men, bearing a superficial resemblance to a genuine article, but composed either of impotent or deleterious ingredients, which they have sought to foist upon the public as the veritable

**Indian Vegetable Pills.**  
These fraudulent swindlers could never pass their vile wares upon the public but for the care and assistance of self-styled respectable Druggists, who, for the sake of a little "filthy lucre," lend themselves to the monstrous and hallowed system of imposition. The counterfeiting of a popular medicine is more criminal than a counterfeit of current money. The injuries done to the latter sink to nothing in comparison with the inflicted upon society by the former. We might paint him wringing the mite from the hard ear of invalid penury, which is extended for the boon health, and receives instead the vile drug that extracts and aggravates disease, or to view in melancholy is the reflection that thousands are forever substituted for the true Medicine; who, for the venal fraud might now be living in health, the delight and hope of the social circle. All classes are interested in putting down the vile Counterfeiters.

Let the Stores where they are so be marked and Shunned.  
Let the virtuous indignation of the community administer to all concerned in these unfair practices as a general and withering rebuke.

**CAUTION:**  
The public will please observe that the genuine Medicine has the following wording on the sides of the boxes.

**"WRIGHT'S INDIAN VEGETABLE PILLS."**  
—Indian Purgative—  
OF THE NORTH AMERICAN COLLEGE OF HEALTH.

And also, around the border of a label will found in small type, "Entered according to Act of Congress in the year 1840, by William Wright in the Clerk's Office of the District Court of Eastern District of Pennsylvania."

It will be further observed that the printed recitation for using the Medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at bottom of the first page.

The slightest attention to the above few particulars will serve to protect the purchaser from fraud and save the lives of those who may otherwise be endangered by using a Counterfeit Medicine.

The public will also remember, that all the who sell the genuine Indian Vegetable Pills, provided with a certificate of Agency, signed by WILLIAM WRIGHT, Vice President of the American College of Health, and that Pedlars are never in any case allowed to sell the genuine article. All traveling Agents will be provided with a certificate of Agency as above described; and those who cannot show one will be known as base imposters.

The regularly appointed Agents can receive their supplies of the above popular pills, as heretofore, from the only Office and General Depot of the New England States

**Dr. D. Jayne's FAMILY MEDICINES.**

**JAYNE'S EXPECTORANT.**  
THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Consumption, Chronic Phlegm, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The worst symptoms of this disease, Bronchitis, are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hoarse Cough, a Spitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures ASTHMA. Two or three large doses will cure the most violent form of this disease, in from 15 minutes to an hour's time. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.

If this Expectorant is given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, no as to cause a little nausea for some time, going to bed and covering up warm, it will produce perspiration, and subdue the inflammation at once.

PRICE \$1.00.

**Tonic Vermifuge.**

**WORMS IN CHILDREN.** Of all diseases to which children are exposed, none are so fatal to them as Worms. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and even death. The delectable worm will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will very soon destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

**JAYNE'S CARMINATIVE BALM.**

This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various derangements of the Stomach and Bowels, and the only article worthy of the least confidence for curing CHOLERA, INFANTUM or SUMMER COMPLAINT, and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhea or Looseness, Cholera Morbus, Summer Complaint, Cholera, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and Inability to Sleep, Wind in the Stomach and Bowels, Hysteria, Cramp, Nausea, and Trichinosis, Sea Sickness, Flatulency, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all Bowel Affections and Nervous Diseases.

PRICE 50 cents.

**Hair Tonic.**

**NO EXCUSE FOR A BALD HEAD.** Since the important discovery of Dr. JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, may, with certainty, have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.

Those who read without prejudice the following communication, which, in addition to the praise of others, will be found in Dr. JAYNE'S TONIC VERMIFUGE, will be very soon destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

HAMILTON, Feb. 15, 1840.  
Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided mane was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut three or four times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would have been.

Should the use of the Tonic with little or no faith that it would ever be successful to my hair, though I felt entire confidence in your statement, and had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with success, and every hope of final success, the diligent use of your Tonic, which, amidst all the hair humors which have been advertised in the press, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads.

**Jayne's Sanative Pills.**

These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsy and other diseases of the Liver. Persons taking them can eat and drink as usual, without fear of injury; and, what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.

These Pills may be taken at all times, and are beneficial in nearly all diseases. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammatory, Intermitting, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsy they are really an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action in that important organ. They are very valuable in diseases of the Skin and for what is commonly called "impurity of the blood," also for Female Complaints, Costiveness, &c. &c., and in fact every disorder where an Apertive, Alterative or Purgative medicine is required.

For the cure of the numerous and distressing cases of DYSPEPSY POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Apertive, when purging is necessary, while using his Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.
